

## Corporate Overview

Mini America Development, LLC, was founded in 2009 by Eric Alexander de Groot. Mini America Park is a premier educational theme park and virtual experience that brings America to life in miniature and focuses on entertainment, education, and environmental sustainability.

Mini America includes both virtual reality and real estate. The land for Phase One of the park, *Mini America: The Experience* is secured on the grounds of LakePoint Sporting Community and Town Center just northwest of Atlanta in Emerson, Georgia. The Mini America Portal and The Virtual Experience can be found online at [www.miniamerica.org](http://www.miniamerica.org).

The park is inspired by many famous and widely visited miniature parks around the world including Madurodam in The Netherlands and Miniatur Wunderland in Germany. Mini America will include notable American landmarks and tourist destinations with moving miniatures, a Mini garden, and a themed sports hotel including café and retail space featuring Made in the USA products. In addition, these American goods and services will also be sold on line.

### **THEMES and PROGRAMS:**

**Family Entertainment:** Moving miniatures, rides, sports and entertainment programs, garden tours, retail, and concession.

**Education:** American history displays and programs, entrepreneur portal and networking site.

**Environment:** Innovative green initiatives, environmental education programs.

**Corporate Entertainment:** Event space for parties, conferences, and award ceremonies.

Mini America Park will host year-round events focused on holidays, sports, patriotism, military, arts, technology, and the environment, whilst promoting the American spirit of Innovation.
